Toledo Museum of Art

F O R E W O R D

THE Museum has acquired in past years a very considerable number of drawings and some water colors. Most of these are carefully preserved in cabinets, after the custom of all museums, where they are readily available to the student. As many of them have not been publicly shown for some years, they are being hung during the month of September as a temporary exhibition.

Hanging in one of the Print Galleries at this time are some recently acquired etchings, engravings and wood blocks by old masters and contemporary artists.
